

Dear Commissioner Henney:

Like many Americans, I am very concerned about the safety of the food I choose to eat. ~~I believe it is my right as a consumer to know if the food I am eating has been genetically altered.~~ Such foods pose unknown risks to the environment, to family farmers, and to my health and the health of my family.

In May, a lawsuit was filed challenging the F.D.A.'s policy not to require labels on transgenic foods. I am writing in support of the demands of this lawsuit for safety testing and complete and prominent labels. ~~Consumers should not be made unknowing guinea pigs in the industry's experiments with potentially dangerous foods.~~ I am eager to hear that the F.D.A. is living up to its mandate to protect public health and will provide consumers with the information we need about the food we eat.

I also see no special labeling for dairy products in which cows have been hormone injected, such as done by the Land 'o Lake Co. I have the right to know!!
